Attachment: Accompanying Statement

ACCOMPANYING STATEMENT

This statement explains how Cumby Telephone Cooperative, Inc.'s ("the Company") procedures ensure compliance with the FCC rules on CPNI and its requirements for the safeguarding of such customer information. The Company's operating procedures ensure that it is in compliance with the FCC's CPNI Rules because disclosure of, or permitting access to, our customers' CPNI is not allowed without obtaining the requisite customer approval, except as required by law, or the exceptions set forth in 47 U.S.C. §222, and Subpart U of Title 47 of the Code of Federal Regulations; 47 C.F.R §64.2001 through §64.2011.

The Company has chosen to prohibit the use or release of CPNI for marketing purposes by itself and between its affiliates.

The Company has a written CPNI policy that explains what CPNI is, when it may be used without customer approval, and when customer approval is required prior to CPNI being used, disclosed or accessed. The Company has trained its employees about CPNI and when they are and are not authorized to use CPNI. The Company's CPNI policy describes the disciplinary process related to noncompliance with CPNI obligations, and possible disciplinary action up to and including termination of employment.

The Company has assigned a Director for CPNI Compliance to serve as the central point of contact regarding the Company's CPNI responsibilities and questions related to CPNI Policy. The Director for CPNI Compliance has responsibilities including, but not limited to, supervising the training of all Company employees with access to CPNI, investigating complaints of unauthorized release of CPNI, and reporting any CPNI breaches to the appropriate law enforcement agencies. The Director for CPNI Compliance also maintains records in accordance with FCC CPNI rules including records of any discovered breaches. Records of any CPNI breach and notifications to law enforcement, as well as law enforcement's responses are maintained for a period of at least two years.

Appropriate safeguards on the disclosure of CPNI have been implemented in accordance with C.F. R. §64.2010, including, but not limited to the following: Although the Company has not implemented passwords for authentication purposes, call detail information is not discussed with a customer on a customer-initiated call unless the customer has sufficient details about the call(s) in question to address the customer service issue. If the customer is unable to provide sufficient information about the call in question, call detail information is shared only by (1) calling the customer back at the telephone number of record; or (2) mailing the information to the address of record; or (3) the customer coming to the office with a valid photo I.D. matching the name on the customer's account. On a customer-initiated call, non-call detail information can only be

Cumby Telephone Cooperative, Inc. (ILEC) and
Cumby Telephone Cooperative, Inc. (CLEC)

discussed after the customer is authenticated using standard procedures, such as personally-identifiable information noted on the account records.

Currently, the Company's customers do not have online access to their accounts. If this changes in the future, the Company will implement authentication procedures for online access to CPNI in accordance with § 64.2010(c) and (e).

The Company has implemented procedures to immediately notify a customer whenever an address of record is created or changed.

The Company requires express opt-in consent from a customer prior to the release of CPNI to a joint venture partner or independent contractor for marketing purposes. However, the Company has not and does not plan to release CPNI to any third parties for marketing purposes.

In the event of a CPNI breach, the Company complies with the FCC's rules regarding notice to law enforcement (i.e., United States Secret Service (USSS) and the Federal Bureau of Investigation (FBI)) and customers.
